**Tile work to include but not limited to:**

Scope: Bathroom # 2 floor and shower in the same tile to include the shower walls. Looking to carry the tile throughout the bath. Would like to explore coved corners at the floor within the shower.

In the master bathroom the tile is to be floated up the walls along the shower (including the shower stall wall next to the toilet) and across the vanity. Would like these walls floor to ceiling tile. Would like to include a metal strip detail throughout. The floor will be concrete or a gunnite material.

Working with a not to exceed \$10 per sf material budget for tile. Would like a bid for installation only but will entertain material under a separate bid.
